CHICAGO WATER SERVICE TO SUBURBS IS NOT SATISFACTORY

(CNS) A water shortage has hit two more suburbs. The village presidents of Evergreen Park and Oak Lawn issued a plea Monday to their 22 thousand residents not to use any water that night if possible.

Oak Lawn village president Harvey Wick reports that he had to shut down the water supply there Saturday night. And he warns he may have to do it again. The village president of Evergreen Park, Joseph Tanner, expresses the same fear.

Both say Chicago is not delivering enough water to keep reservoirs above the danger point where, if a fire broke out, neither town would have enough water to fight it.

Wick and Tanner also ask residents of Chicago's south side to conserve water. Water pump down to Oak Lawn and Evergreen Park travels the same route as water pumped to the south side. And they complain south siders are using so much water that there's little left in the lines by

Word was received here this week of the sudden death of Stephen Auler, 8 years old, grandson of Mr. and Mrs. Leo Stephens, who lived on a farm east of Mokena for a number of years. The Stephens moved to Spring Valley, Minn. in March.

Stephen Auler with his parents, Mr. and Mrs. Donald Auler of Villa Park, spent last week end with Mr. Auler's parents at their cottage at Fox Lake, Wheaton, Wis. Stephen and his 5 year old sister Susan Eleanore, were playing at the water's edge Saturday where a boat was tied. Their father called to them as he was going to a nearby store, and Susan Eleanore ran to accompany him, but Stephen chose not to go. Upon their return soon after, Stephen could not be found and a search was started. The lake's edge was dragged and the body of Stephen was found in a short time.

As no one saw what had happened it is presumed that Stephen might have tried to enter the boat which caused him to fall into the water. The coroner, following the inquest, stated evidence showed the young lad had made a struggle to save himself.

Funeral services were held Tuesday in Villa Park with burial in Eden's cemetery. Friends in this vicinity attended the funeral.

Mrs. Auler is the former Dorothy Stephen of Mokena.

the time it gets to Oak Lawn and Evergreen Park.

Wick says that his residents right now have to go to basement tubs to get water. He says faucets on the first floor give only a trickle there, and faucets on second floors in Oak Lawn homes are giving no water at all.

Both village presidents asked their residents and also school siders not to sprinkle until after 11 o'clock Monday night. "But don't sprinkle at all tonight," they begged.

Said Tanner, "If we had a fire right now, we'd be in an awful fix." He said Evergreen Park's two million gallon water reservoir was down to the two foot level. Normal level is 14 feet.

Wick said Oak Lawn's one-million gallon storage tank was down to the six foot level.

"When it gets down to four feet, we'll have to shut off water to homes," he said. He said Oak Lawn has been a victim of a water shortage since the heat wave of June 19th.

Burning Shed Threat To Smiel Home

A fire of unknown origin burned a shed on the Joseph Smiel property at 115th and Hamilton west of Mokena, Monday night. Flames from the burning shed were noticed by Wesley Cappel as he drove past the place about 11:30 p.m. He called to Mrs. Smiel who was in the house, unaware of the fire. Neighbors went to their assistance and the Mokena Fire department was called.

A. P. Belanger, who lives near the Smiels, sprayed oil drums near the garage with a garden hose and articles were removed from the garage which was threatened by the flames, which could be seen five miles away. The shed and all its contents were destroyed. Furniture and other articles of value were stored there. These were partly covered by insurance. Because of the extreme heat and sun shining on the large shed window, it was considered possible that spontaneous combustion might have been the cause. Mr. Smiel was at work in Chicago when the shed burned. The Smiel's expressed their gratitude for the prompt and efficient work done by the Mokena firemen in saving the garage and home.

How To Stop Socialism

Some time ago Charles E. Wilson, former Defense Mobilizer, made public an idea that had been germinating in his mind since 1946. It is that all Federally owned businesses be sold to private enterprise. This would be done by converting the businesses concerned into stock companies and selling the shares to holders of government bonds. Since then, it is reported, Mr. Wilson has received a flood of mail from all over the country and from all kinds of people endorsing his proposal and expressing their willingness to exchange their bonds for the shares of stock. And on top of that, the proposal has received warm praise

and support from those who want to save this country from the blight of socialism.

In a recent article, Pathfinder magazine observed that Mr. Wilson's plan has six great points in its favor, running as follows:

It would reduce the national debt by 10 per cent, for a total of some \$27,000,000,000. It would reduce the interest on this debt by about \$750,000,000 a year. It would produce a larger tax yield from properties which are now wholly or largely tax-free and, in addition, are supported by our taxes. It would give more people a share in U. S. production. It would break the trend toward

socialistic ownership of enterprise. It would slow up the bureaucratic drive for more big government.

The socialist goal has been to gain a political monopoly of essential resources and services, notably electric power, on a piece meal basis. Mr. Wilson touched on this in the speech in which he disclosed his plan. He said, "Down in Washington I've watched our creeping paralysis of socialism at work—we have to launch a second era of trust-busting and we need a bigger stick than even Teddy Roosevelt could swing. If the concentration of power by business was bad for our country—and it was—then the concentration of power by government is equally bad. And it is—"

It's hard to see how anyone who believes in freedom and opportunity—in all the ideals and principles this country is supposed to stand for—can quarrel with that. Mr. Wilson's plan for stopping socialism cold is the soundest one yet proposed.

At Bauer Motor Sales

Packard Showroom

Power steering has created greater interest among local motorists than any other feature on the automobile because of its newness on the automotive market. Mr. A. W. Bauer of Bauer Motor Sales, 1233 S. Western avenue, reported today. The report was given after a preliminary check of questionnaires in connection with Packard Motor Car Company's nationwide "Invitation Month" activity through which drivers and passengers become analysts and critically discuss the various features of modern automobiles.

Some 62 percent of the questions asked service department employees concerned power steering. Also rated high on the list of popular features based on inquiries received are automatic transmission and power brakes. The information was obtained through the "Invitation Month" program in which visitors to the Bauer Motor Sales Packard showroom are asked to name features most appealing to them, write their reason or reasons on a card, and leave it with Mr. A. W. Bauer. Writers who show the keenest analysis of the feature they have chosen will be eligible to receive one of the 25 Packard cars that will be awarded at the close of competition. First prize will be a Packard Caribbean, custom sport convertible. Additional prizes will include 12 Packard Clippers.

deluxe four door sedans, and 12 Packard Patricians.

Fred J. Walters, marketing vice president of Packard, announced at Detroit that thus far entrants had discussed 37 different features of the Packard cars in the luxury field and Packard

clippers in the medium priced class.

Features discussed range from the popular power steering, automatic transmission and power brakes to such items as greater luggage compartment room.

Packard glove box drawer, the Italian influenced Packard contour styling, and increased visibility.

Walters pointed out that "Invitation Month" as the name implies is an invitation to the

public to participate in the new Packard expansion program by providing the Packard management with analysis of the most popular features in modern automobiles.

New Red Stop Signs Popular

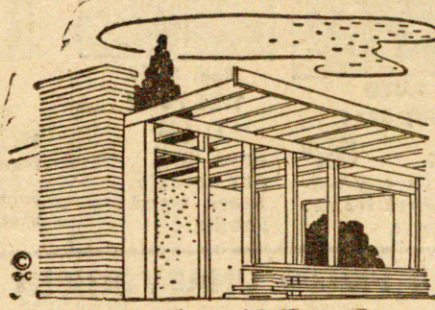

Chicago cab driver Chester Burkholder pulls up to admire one of the new red stop signs that are brightly visible at night, now being installed in various sections of the country. Use of red, the color traditionally associated with "Stop," has been impractical in the past because red-painted signs were not visible enough at night for safety. With the recent development of a reflective red sheeting, visible on a highway from a quarter of a mile away at night because it reflects the light from oncoming cars' headlights, traffic authorities feel they have solved the problem and anticipate a reduction in nighttime intersection accidents as a result.

The Quality of National's Meat is Never Left to Chance!
It is an unalterable policy with National's Meat Buyers to buy only U. S. Department of Agriculture Graded Beef. 1878

It was an important but unheralded June day. The first Bell Telephone exchange in Illinois was opened in Chicago at La Salle Street, north of Madison. "Mr. Smith" had one of the 75 newfangled Bell telephones in his office. To place a call required about six complicated operations and as long as twenty minutes. And if "Mr. Smith" were in a hurry, chances were the boy operators would tell him to "hold his horses." The boy operators weren't as courteous as today's "voices with a smile." Of course, "Mr. Smith" couldn't call "long distance."

1953

This week marks the 75th anniversary of Bell Telephone in Illinois. "Mrs. Smith" of 1953 calls her husband to tell him Junior wants to take his "hot rod" to school. Her local calls go through in an average of 25 seconds. And, no distance is "too long" now. She can reach millions of telephones most anywhere in the world, including phones in autos, trains, airplanes and ships. "The Smiths" take their phone for granted—a part of their everyday living.

2028

What kind of telephone service will you and "the Smiths" have in coming years? This we can promise—telephone people, never satisfied with just good service, will continually try to make it better as the tempo of American life requires. In a few years, new equipment will make it possible for you to dial across the nation as easily as you now call across the street. Bell Telephone Laboratories has opened new fields with its transistor, the "mighty midget" of electronics. Many are the communications wonders "on order" for tomorrow's better telephone service for your community, for Illinois, and for the nation.

Tinley-Crete Small Fry

On Friday, June 19, Tinley Park Small Fry traveled to Crete to win an easy victory against a good fielding Crete team. Their pitcher was no match for Tinley's hard hitting boys. Miller led the attack with four for four, Meyer had three hits on four trips to the plate.

Siemens, Hug and Hartman each had two hits on three at-bats. Hug, Miller and Meyer had doubles. Eggert scored on a triple when the catcher dropped the ball. Miller homered with the bases loaded. Jimmy Meyer played his first little league game, replacing Siemens, the right fielder, in the third inning. He walked twice on two trips to the plate, scoring both times. After Tinley had a seven run lead, Gary Bettenhausen took over the pitching job from Hug, with two out in the third inning and showed promise of being a very good pitcher. He only allowed three hits in three and one third innings; for Crete's total of two runs.

Frankfort Clips Steger 1-0 in Eight Innings

by Denny Wheeler
From the looks of the first game, Frankfort seems to have started the season right where they left off last season. By this time they won't win. But it took them two extra innings to do it. Going into the top of the sixth, Allan Schram and Steger's pitcher Benning were hooked up in a 0-0 pitchers' duel. However, Steger's big catcher, Hunt, led off the inning with a tremendous triple. Then fireman Allan Mager came in and struck out the side, stranding Hunt on third. Lennie then went on to handout the Kiwanis of Steger to no hits in the remaining two innings.

Frankfort had a golden opportunity in the seventh but Jimmy Stevens struck out under Benning's fast ball to end the inning.

Two little men, Big Heroes. After Mager had smacked Steger's hopes in the top of the eighth, Frankfort came to bat. Little Jerry Peppenbrink let off with his 2nd base hit of the evening. He moved to second on a ground out, then with two out little Jerry Eisenbrandt came to bat. He fouled off three or four pitches and then slapped a hit to right. Peppenbrink chased around third and beat the throw to plate to win the game for Frankfort. Mager got credit for the win. Benning suffered the loss.

Willco-Eight Small Fry News

Tinley Park continued to go strong in the win column as they won two games in one week's play, defeating Manhattan Monday, 7 to 2 and lashing Crete, Friday with a sixteen hit attack for a 13 to 5 victory. Hug and Bettenhausen hurled Tinley to the victory while Hansen of Crete was the loser. Although Tinley won this game easily, Crete was handicapped with the lack of several of their regulars. This was the second loss for Crete during the week, the y having lost an extra inning battle that went nine innings before Frankfort exploded with a six run spurge, the final score being 6 to 0. Mager was the winning hurler for Frankfort, recording 20 strikeouts in that length of innings pitched. Bucholz and Beecher hurled for the losers.

In Friday's game Frankfort was the victim of Manhattan 9 to 6. This was the first win for Manhattan they having lost earlier in the week to Tinley Park. Peotone was finally stopped Friday by Benning of Steger with a 2 hit shutout. Besides blanking Peotone, Benning also struck out 14 batters. Toepper hurled for Peotone and gave up 5 runs and seven hits.

Earlier in the week Peotone had tripped up Beecher with a two run outburst in the last inning. It was Wilco's game winning hit in the final frame that gave the pitching verdict to Harms of Peotone over Don Olson of Beecher.

Beecher recovered from the loss with Peotone and took one in a very similar way from Matteson Friday night and give them first place in the eastern division. With Matteson leading 4 to 3 Beecher's Eugene Hamerster hit a home run with a man aboard to win the game in the final frame. Saller was the winning pitcher allowing just four hits and striking out 13. The loss dropped Matteson to second place after enjoying a short stay in first with a 6 to 3 win over Steger Monday night. Mike Komar twirled the win.

Tinley Small Fry Take League Lead

The result of Tinley's trip to Matteson June 22, was a 10 to 3 victory for them. Siemens drove a sharp single past the pitcher into center field and scored the first run for Tinley in the first inning. Matteson came up and a walk to Komar the pitcher and a triple by Buckmeier tied the score. Neither team scored in the second or third.

Hartman tripped with one out in the fourth and Siemens singled him home, to put Tinley in the lead. Miller singled to start the fifth inning for Tinley and Eggert slammed a home run over the left fielder's head.

Two bases on balls, three errors, a fielder's choice and singles by Siemens and Meyer accounted for six more runs, in Tinley's half of the fifth inning, in which they scored eight runs on four hits. Farmer pitching for Tinley had very good control and allowed only three outs, and three bases on balls.

Comments From The Bench

By Ruth and Ruth
On Sunday afternoon under a blazing mid-afternoon sun, the Frankfort girls softball team clubbed the Manhattan softballers 20 to 8 at the Manhattan Athletic Field.

In this, their second game, teenie Loris had a much easier time making his hot out enthusiastic team circle the bases to score their twenty runs on nineteen hits and eight errors. Vacation time has played havoc with the lineup, but thanks to Gloria and Joyce Keiter of Atomer and Sharon Sincos of Joliet, who filled in at first, right field and catcher respectively, the team was able to come through with its second win. Not only did these draftees help in the fielding departments but were responsible for seven runs. Other regulars who figured in the hits and runs column were the three lead off batters, Anna Laecker, Jean Lentz, and Irene Benek.

Arieen Borins Fleisher held the opposition to one run on two hits, while striking out four batters, until the third inning, when she tired briefly from the terrific heat and allowed three runs on only two hits. She cannot be blamed entirely since several errors, stolen bases, and four scattered walks gave the "Mad Hatters" their biggest inning throughout the entire game.

Frankfort's biggest inning came early in the game as almost the entire lineup facing M. Wickham scored on two hits, five walks and one error. The battery of Wickham and O'Connor traded positions for the last two outs.

On several occasions, Manhattan took advantage of Frankfort's failure to call or flyballs and throwing errors. In the late innings of play, Laveria Mackey displayed beautiful throwing ability as she threw a perfect strike from center field to home plate where Sharon Sincos tagged the runner who was attempting to score.

The continual chatter of the infield, led by Inez Reiter, helped to keep the spirit high until the last Manhattan girl was out. The Frankfort team seems to be trying to revise the motto, "We Came, We Saw, We Conquer" to "We Hit, We Run, We Score".

Your reporters, Ruth Minger and Ruth Schaper, slightly sunburned from holding down the bench, hope to see some of you at our next home games, Thursday evening against Ingalls Park at 7 pm. and July 1 against Homer at 6:30 pm. We advise you to bring your own insecticide.

Bovees Have Winners at Brown Swiss Show

Bob and Nancy Bovee really won the high honors at Brown Swiss Canton 4 Show, recently held at Clifton.

Robert exhibited both the junior and grand champion bull, an also the senior and grand champion female.

This young bull calf is considered by many as a very outstanding individual, carrying with him a good background pedigree and was recently seen on "Farm Town U. S. A. TV Show."

Nancy Bovee, a sister of Robert, exhibited the junior champion female.

And then to make the picture complete, Robert won first in the junior judging contest and Nancy won second place.

Wesley Meyer of Peotone tied for first in the adult judging contest. In addition to the above winnings, Meyer Brothers of Peotone also had a blue ribbon winner in the bull calf class, and exhibited the senior champion bull. In the heifer class, blue ribbon winners were shown by George Beutel & Sons of Mokena and by Meyer Brothers of Peotone. Nancy Bovee exhibited two heifers in this class, securing both a red and white ribbon.

In addition to Nancy Bovee's blue ribbon in the senior yearling heifer class, and which was later named junior champion female, Meyer Brothers also had a blue ribbon winner in this same class.

In the two year old cow class, blue ribbon winners were exhibited by George Beutel & Sons and

Robert Bovee, while Meyer Brothers had a red ribbon winner. In the class for three or four year old cows, Meyer Brothers exhibited three cows which were all blue ribbon winners.

From the class for mature cows, came the senior champion

female, shown by Robert Bovee, while another blue ribbon winner was shown by Meyer Brothers in this same class.

According to Prof. W. W. Yapp of the University of Illinois, quality of the show was quite outstanding.

Pay more? What for?

Fifty Years Forward on the American Road

You don't have to pay costly-car prices for costly-car comforts. Ford brings you everything [and we mean everything] you've ever wanted in a car, at a price that's well within your reach! And according to recent surveys, a Ford returns more of its original cost when sold than any other car at any price!

Here are a few of the "Worth More" advantages you'll find in the '53 Ford:

1. A V-8 engine—powerful and smooth!

Ford's famous high-compression V-8 is a leader in quiet, flexible, economical performance. Ford, remember, has built more V-8's than all other makers combined—over 13 million!

2. America's most economical Six engine!

If it's a Six you want, Ford offers you the high-compression, low-friction Mileage Maker... the engine which, with optional Overdrive, won over all other cars in this year's Mobilgas Economy Run!

3. America's finest and most versatile automatic drive!

Fordomatic Drive is the "auto-

matic" which gives you both the get-up-and-go of automatic gears and the smoothness of a fluid torque converter.

4. Automatic gas savings!

Ford's Automatic Power Pilot (on Six and V-8) meters just the right amount of gas, times ignition precisely, burns fuel evenly and completely.

5. America's newest and finest power steering!

Ford's Master-Guide power steering gives you new ease, stability and safety in guiding your car on smooth roads or rough. Steering is up to 75% easier.

6. Largest choice of models in the low-price field!

Ford alone gives you a choice of

18 different models... a SIX or V-8... Fordomatic, Conventional or Overdrive... the widest variety of body, color and upholstery combinations.

7. A body that's the style-setter!

Only Ford in its field gives you the advantages of a full-tight Crestmark body... the trend-maker in design and beauty. Ford's body is the longest and Ford's trunk, the largest.

8. New driving conveniences!

Ford's first in its field with "Worth More" features like... easier-acting, suspended pedals that eliminate floor holes... foam rubber cushions on front and rear seats in all models... and convenient Center-Fill Fueling.

9. An automatically controlled ride!

The wide front tread (widest in

the low-price field) takes tilt out of turns... gives you a more level ride. With new "balanced suspension," new spring and shock absorber action and new rubber compression bumpers road shock in the front end alone is reduced up to 80%.

10. It's worth more when you sell it!

An impartial survey of used car prices proved that Fords return a greater proportion of their original cost than any other cars in America.

But don't take our word for it. Stop in and Test Drive this Ford for yourself. We predict you'll be sold before you're in second! It was true last year and it's even truer this year: you can pay more, but you can't buy better than Ford.

WORTH MORE WHEN YOU BUY IT...
 WORTH MORE WHEN YOU SELL IT...

news. The traditional "Father's Day" party was held this year at the R. Petersen's home on W. Circle Drive. Their driveway was the oasis of our hills. Refreshments flowed and the sandwiches were delicious. Many of the neighbors participated in the good time provided by the proud fathers of our community. The climax of the evening proved satisfactory as all of the fathers managed to answer the alarm clocks the following morning. In case anyone doubted their ears, that was a rooster crowing at midnight. We know of only two roosters that perform at midnight, both their names start with a "B". Traffic was held up for a short while on West Circle drive due to a clogged tail pipe, nothing that a little muscle and a lot of advice couldn't remedy. All of which proves that Lincolnwood's a pretty nice place to live.

chemicals tipped over on the train and burned a boxcar.

Edison's first patented invention was the vote counter and he was not successful in selling it.

When Thomas repaired a machine for sending out gold prices he was given a new job with the company who owned the machine. Later he invented a machine for sending out the prices of stocks and bonds over wires. He sold this invention for \$40,000 and used the money to build a laboratory.

One of Edison's inventions the phonograph, worked the first time he tried it. Most of his other inventions took much longer. Among them were a tele-

graph receiving machine, a method of sending out many messages over one telegraph wire, and the wire recorder. His most important invention was the incandescent lamp which we now know as the electric light.

Two million youths reach driving age each year, yet only one out of every eight is properly trained to drive a car, says the Chicago Motor Club.
